RECOMMENDED USES::	These pot holders are suitable for protecting hands from contact with pots, hot plates, ovens (within the limits of the marked protective levels).																																
RISKS:	<p><u>Suitable for risks of:</u> contact heat.</p> <p><u>Not suitable for risks of abrasion, cut, perforation, heat and fire (except contact heat), chemical products, cold and for all uses not mentioned in this Informative Note and in particular those that fall under Category 3 of Personal Protective Equipment.</u></p> <p><u>Do not place in direct contact with heat sources (flames, electric plates, etc.)</u></p>																																
WARNING::	The presence of allergenic substances is not known to the manufacturer. Please report any observed cases of hypersensitivity or allergic reaction																																
PRELIMINARY CHECKS AND USE: WARNINGS	<p>Before use, make a visual check of the palm mitten to make sure it is in perfect condition, clean and intact.</p> <p>If it is not intact (visible damage such as unstitching, breakages or soiling) it must be replaced.</p>																																
INSTRUCTIONS FOR MAINTENANCE AND EXPIRY DATE:	<p>The pot holder must be stored in its original packaging, in a dry place away from heat sources. Avoid contact with solvent products that can cause alteration of the characteristics.</p> <p>In particularly severe conditions of use or in environments with special situations, it is possible that the palm mitten undergoes sudden degradation not foreseen by the manufacturer and therefore it is not possible to establish an "expiry date", even if, in relation to the natural deterioration of the material with which this PPE is produced and the consequent reduction in quality, it is considered appropriate to recommend its use no later than 5 years from purchase.</p> <p>Conditions other than those recommended could shorten the life of the product.</p>																																
CLEANING:	Washable with water and mild detergent at 30 ° C (tested 3 washing cycles).																																
MARKING:	<p>On the label sewn on the pot holder:</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="text-align: center;"></td> <td>CE marking, which certifies the compliance of the PPE with the essential health and safety requirements of the Regulation.</td> </tr> <tr> <td style="text-align: center;"></td> <td>Registered trademark of the manufacturer.</td> </tr> <tr> <td style="text-align: center;">GP17058</td> <td>Model</td> </tr> <tr> <td style="text-align: center;"></td> <td>Pictogram that refers to the Informative Note</td> </tr> </table>		CE marking, which certifies the compliance of the PPE with the essential health and safety requirements of the Regulation.
